

WEALDEN SAILABILITY

SAFETY POLICY AND OPERATING PROCEDURES

General Statement

Wealden Sailability (WS), takes responsibility for all WS activity on the water and on the pontoons during organised sessions. At all other times and places the responsibility and care for all participants remains with themselves or their carers.

The decision to allow any boats to go afloat, to be reefed or not, or for any or all boats to return to the pontoons, rests with the Session Manager, who will liaise with the Safety Boat Coxswain as required.

Whilst operating at Longford Lake Chipstead, WS operates generally under the Rules and Byelaws of Chipstead Sailing Club and otherwise operates more specifically as detailed below.

Safety Policy

WS shall take reasonable appropriate precaution to ensure the health and safety of all persons attending WS sessions. WS Volunteers will receive training in relevant techniques as appropriate.

Operational Status.

1. WS currently operates on a sessional basis i.e., persons attending for sailing may do so only by prior arrangement with WS and only for the duration of the agreed session. Persons wishing to attend outside of these restrictions should contact a WS Trustee.
2. Sessions will normally be held on Tuesdays and Thursdays from April to October inclusive and will normally start at 10:00. Any deviation from this will be communicated appropriately.
3. For the purposes of this document:
 - a. All persons acting on behalf of WS shall be generally referred to as “WS Volunteers”;
 - b. All persons attending sessions run by WS shall be generally referred to as “Sailors” and their “Carers” or “Guardians”.
 - i. Sailors shall be those persons participating in WS sessions.
 - ii. Carers or Guardians shall be those persons who are in attendance to provide care for the Sailors.

Management Definitions

1. Session Manager

- a. The Session Manager will be a WS Trustee who will have overall responsibility for the management of the session, or for that part of the session previously agreed.

2. Pontoon Manager

- a. The Pontoon Manager or Managers (depending on the Sailors requirements and numbers on the session day), will either be the appointed WS Session Manager or a WS Volunteer appointed by the Session Manager, who will be responsible to the Session Manager for managing the pontoon during a session.

3. WS Volunteers

- a. WS Volunteers are individuals vetted and approved by the WS Trustees to assist in the running of the WS sessions.

4. Safety Boat Coxswain

- a. The Safety Boat Coxswain is the WS Volunteer appropriately trained and authorised by the WS Trustees to be responsible for on the water safety.

Child Protection and Vulnerable Adults

1. All WS Volunteers who are likely to come into regular contact with children and vulnerable adults shall be subject to appropriate screening in accordance with current legislation.
2. If any sailing club members with children or vulnerable adults are using the clubhouse or if there are Chipstead Sailing Club courses taking place involving children, then all Sailors who

are accompanied by Carers will either be restricted to using the disabled toilet or must be accompanied by a Carer to use the toilets and changing rooms.

3. See also the WS policy on Child and Vulnerable Adults Protection.
4. WS will have a person responsible for Child Protection and Vulnerable Adults.

Arrival

1. The responsible WS Session Manager should:
 - a. ensure that access to the premises is possible at the agreed time.
 - b. be present, or arrange someone to be present, in order to greet the Sailors and their Cares/ Guardians, and to assist as necessary.

WS Volunteer Briefing

1. The appointed WS Session Manager for the day should brief all Volunteers prior to the commencement of each session or as required.

Assessment of Participants

1. It is the responsibility of the sailor and/or their Guardian or Carer to bring to the attention of the WS Session Manager any issues that their Sailor, or the individual may have, and for the WS Session Manager and the individual or Carer/Guardian as appropriate to agree on the requirements to be put in place to enable the Sailor to go sailing.

Volunteers

1. WS Volunteers shall be assessed by the Trustees as to what boats they are capable of helming.
2. WS Volunteers will be provided with such additional training and/or guidance as is deemed necessary for them.

First Aid

1. There must be at least two trained "First Aider" present during sessions one on shore and one in the Safety Boat.
2. There must be two persons on shore at all times. One of these is the Session Manager.
3. There are two first aid kits available for the session:
 - a. **Shore Based Kit.** During sessions, this should be kept in the vicinity of the pontoon.
 - b. **Safety Boat Kit.** During sessions, this should be kept in the primary Safety Boat.
4. There is a defibrillator available for the session. This is located in the club house.

Accident/Hazardous Incident Reporting

All accidents and/or hazardous incidents should be reported to the Session Manager at the earliest practical opportunity.

Defect Reporting

All equipment defects should be reported to the Session Manager at the earliest practical opportunity.

Boats

1. Only sailing boats with the agreement of the WS Session Manager shall be used.

Safety Boat Cover Policy

1. The Session Manager has overall responsibility for all safety issues afloat and ashore during a session.
2. The Safety Boat Coxswain is responsible to the Session Manager for the safety of all WS volunteers and sailors when afloat.
3. The Commando Helm is responsible to the Safety Boat Coxswain for patrolling and assisting boats in difficulty.
4. The number of safety boats to be used shall be at the discretion of the WS Session Manager in direct consultation with the Safety Boat Coxswain and taking into consideration the number and types of boats afloat, the number of sailors afloat, and the prevailing weather conditions. These decisions shall be recorded.
5. If during a session the conditions deteriorate The Safety Boat Coxswain shall reassess the safety needs and shall call for additional power boats or send sailing boats ashore.
6. No sailors or volunteers will be allowed to go afloat until The Safety Boat is afloat and appropriately manned.
7. The Safety Boat and the Commando shall be helmed by competent WS volunteers who have been approved to carry out this role by the Trustees.
8. The Safety Boat Coxswain will helm the Safety Boat and shall hold an RYA PB2 certificate.
9. The Safety Boat shall have a qualified First Aider on board.
10. The Safety Boat shall be manned by two persons.

Launching

1. If manhandling any boat down the approach ramp, due consideration must be given to having an adequate number of physically able people available to safely carry out this procedure.
2. Boats should not be launched with the mainsail hoisted.
3. Life jackets or buoyancy aids to be worn before approaching the water edge or going onto the pontoons.
4. All personal buoyancy should be worn outside of personal clothing.
5. The relevant WS Volunteers must check sailors' personal buoyancy, before the sailor goes afloat.
6. Sailors and/or Carers/guardians must not enter a boat without the permission of the Session Manager or Pontoon Manager.

Sailing

1. The default rigging decision must always be “why should I NOT reef the boat”.
2. The Laser Stratos, RS Venture, Martin 16, Drascombe Lugger and Drascombe Longboat must all have fully inflated masthead buoyancy in place before leaving the pontoon. All other dinghies sailed by Wealden Sailability will be assessed according to their requirements.
3. It is the Session Manager’s responsibility to ensure that all the boats have been properly prepared before launching, and correctly rigged before leaving the pontoon. This must include ensuring that any bungs are correctly fitted, and keels are correctly tied down.
4. Sailing should take place only in the area designated for the purpose during the relevant session briefing.

Returning to the Pontoon

1. Volunteers should be available on the pontoon when sailors return, to assist in berthing, and assisting sailors out of their boats.

Wheelchairs and Hoists

1. When a wheelchair is stationary on the pontoon the brakes should be applied.
2. When not in use any wheelchairs will be removed from the pontoon.
3. The hoist may only be used by an appointed and trained WS Volunteer in line with the WS Hoisting Policy Document.
4. Where a Sailor has a Carer or Guardian in attendance, they must supervise the Lifting Operation in order that their Sailors specific requirements are taken into account.
5. For independent Sailors requiring to be hoisted, WS will have a Lifting Plan agreed with the Sailor.
6. Where a Sailor in a wheelchair is on the Pioneer, the Sailor will not be strapped in to their wheelchair. It will be the responsibility of the Carer or Guardian to advise the WS Session Manager and the Pioneer helm if the Sailor has any behavioural or medical issues prior to the Sailor going aboard the Pioneer.

Use of the Power Winch

Power for the electric winch is provided by operation of the foot switch set into the concrete pad. In order to avoid any possibility of fingers getting trapped in the drum, this foot switch and the winch rope must ONLY be operated by the person holding the rope tail leading from the winch drum. Only WS Volunteers are permitted to use the winch. Nobody under the age of 16 should use the winch.
